Permission to Administer Epinephrine at School

Elysian Charter School requires that students with a history of anaphylaxis need to present the following:

1. A written order for epinephrine including the dosage.
2. A written note from the primary care provider stating that the child has a documented history of anaphylaxis, which requires epinephrine. The note must state that the child does not have the capability to self-administer the epinephrine.
3. A written consent form signed by the parent/guardian.
4. The Epi-pen must be in the original container provided by the pharmacy with the proper labeling from the pharmacy and be brought to the school by an adult.

Name of Student _____ Date _____

Epinephrine Dosage _____

For use with these symptoms: _____

Provider Signature _____ Date _____

Permission To Delegate and/or Administer Epinephrine

I give permission for the school nurse to delegate the administration of pre-filled, single dose auto injector mechanism containing epinephrine.

I agree to the delegated person chosen by the school nurse.

I understand the school nurse using standardized training protocols will train the delegate in the administration of the Epi-pen. The delegate will be trained individually for the designated student.

I give permission for my child to receive Epinephrine as ordered by the primary care physician as prescribed. I also hereby give my authorization and consent to trained school personnel to give prompt treatment, as specified by my doctor, to my child. I shall indemnify and hold harmless the district and its employees or agents against any claims arising out of the administration of the Epi-pen to the student.
